\* I'll prepare a varied accompaniment (softer, reflective) for some of the stanzas.

\* last 2 measures, use the high notes just on the final stanza?

\* Stanza 5...there's a syllable stress issue with "Alpha, Omega". Would it be weird to swap them?

"O-ME-ga, Al-pha"?? Or, see the next page...

Al - pha, O - me - ga,

A different rhythm here??
